MESSAGE FROM THE CEO & FOUNDER

At AZJ Baghdad, we believe that successful projects are built on more than technical capability. They require integrity, disciplined execution, accountable management, and a clear understanding of the client's objectives.

AZJ Baghdad Company for Trading, General Contracting and Oilfield Services Ltd. was established in Iraq with a clear ambition: to build a dependable Iraqi enterprise capable of serving government institutions, international organizations, contractors, and private-sector clients across infrastructure, construction, procurement, and oilfield services.

Our approach combines engineering knowledge, local operational capability, structured management systems, and access to local and international supply networks. We place particular emphasis on quality, health and safety, environmental responsibility, compliance, and transparent business practices throughout the project lifecycle.

We are building AZJ Baghdad for the long term. Our objective is not simply to participate in projects, but to become a trusted partner whose performance, responsiveness, and integrity create measurable value for every client we serve.

As we continue to expand our capabilities and partnerships, we remain guided by one principle:

**EVERY COMMITMENT WE MAKE
MUST BE SUPPORTED BY
RESPONSIBLE EXECUTION.**

WHO WE ARE

BUILT ON ENGINEERING. DRIVEN BY RESPONSIBILITY.

AZJ Baghdad Company for Trading, General Contracting and Oilfield Services Ltd. is an Iraqi company established to deliver dependable, integrated solutions across construction, infrastructure, procurement, supply, and oilfield services.

Headquartered in Baghdad, the company combines engineering leadership, local execution capability, structured management systems, and access to local and international supply networks to support projects from planning and procurement through execution, quality control, and handover.

Our business model is built around three complementary capabilities: **General Contracting, Trading & Procurement, and Oilfield Services.**

This integrated structure enables AZJ Baghdad to respond to multidisciplinary project requirements while maintaining clear accountability for quality, safety, compliance, cost, and schedule.

Although AZJ Baghdad was formally established in 2025, its direction is shaped by the engineering and contracting experience of its leadership and by a long-standing professional background in Iraq's construction sector. The company is building on that foundation through modern governance, disciplined project controls, internationally aligned management systems, and responsible business practices.

Today, AZJ Baghdad is positioning itself as a reliable Iraqi partner for government entities, international organizations, EPC and prime contractors, oil & gas operators, and private-sector clients seeking capable local execution and dependable supply-chain support.

ENGINEERING FOUNDATION

Strong technical understanding, engineering leadership, and practical experience in planning, design coordination, and project delivery.

LOCAL EXECUTION

Operational capability, qualified local teams, equipment access, and deep market knowledge to deliver projects efficiently across Iraq.

INTERNATIONAL SOURCING

Access to regional and international suppliers, manufacturers, and advanced products to ensure quality, availability, and competitive value.

RESPONSIBLE MANAGEMENT

Committed to quality, HSE, compliance, ethical practices, and structured project controls at every stage of the project lifecycle.

LOCAL CAPABILITY. INTERNATIONAL STANDARDS. RESPONSIBLE EXECUTION.

MISSION, VISION & CORE VALUES

OUR MISSION

To deliver integrated, high-quality solutions in construction, infrastructure, procurement, and oilfield services that create sustainable value for our clients, empower our people, and contribute to the development of Iraq.

OUR VISION
